**Ann:** Help! Help! Something invaded our country!

**Anna:** Then we should go out and [fight] them back!

**Rose:** I'll bring my helmet to the [fight].

**Shenlin:** I'll bring my father's sword like my hero Mulan to [fight] the invaders!

**Anna:** Let me take out my ninja suit. Then I can be a ninja to [fight] for my country.

**Rose:** The [fight] is about to begin, let me build a barricade.

**Shenlin:** Come on, invaders! [Fight] with me. Ahh~

**Ann:** Hold on! Hold on! Calm down, please! Why are you talking about [fighting]? Put down your swords and take off your [fighting] costumes. All we need now is four masks. Come on, put them on!

**Rose, Shenlin, Anna:** Huh?? Why do we need these to [fight] invaders?

**Ann:** Because the terrible invader I was talking about is H7N9!!!

About my parents  
Dad:Because he went to Macau for work when I was 4 years old. I don't spend much time with him. And he doesn't know what happened when I am in school. He doesn't know what is 免試 or BC test. He only knows that his daughter has a big test to go to senior high school. When I told him what is my decision,he never againsts and encourage me to do what I want to do. I think he is a good dad,although he doesn't understand me.  
Mom: I think my mom and I are both mom and daughter and friends. She raises me up by herself, and I tell her everything which happened in school or between my friends. She very understands me. Because I know what I should do and I will ask myself to do something I need to do. She doesn't worry about me and always give me lots of freedom. She hasn't even tried to control me or sway my decision. She will give me advices and let me think about it by myself. When I am really confused,see will have a talk to me and let me decide. Her advices are always useful. I think she is a very very very wonderful mom.

The words are composed by soy beans and corns. Today GM food are everywhere around the world, and actually we have eaten a lot. Today I am going to talk about what is GM food and whether it is good or not.

Of course GM food is not like this, but this picture let me think about acupuncture. GM food is something has been modified food.

There is no denying that GM food has some advantages, but some people think that it is very unnatural. Like this:

Regret ---- We make our teacher upset

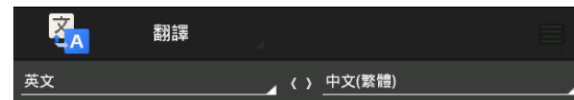

Today, our class were in a low pressure. The teacher planned to let us share something about our presentations at first, but we seemed very surprised, and didn't prepare for it. We have delayed it for a week, and the other two classes have already finished theirs last week. Because of that, the teacher felt unhappy and maybe thought we're lazy. I remembered this presentation, but I thought we can say something we searched on the Net, and our funny photos. I didn't know what I should prepare for. It was made by us, especially, this topic have been told by others on civics studies last Wednesday. I didn't think we need to talk so much, so I didn't ask my classmate to e-mail the powerpoint to me. Our fault is that we weren't serious about that, and we will forget something we should do without others' reminders. That's not such a thing that should happen on the students like us. We made the teacher disappointed, and we felt very sorry for we didn't do the preparation. We hoped the teacher can give us another new chance. We'll try our best for the activity.

Use Google Translate

Today, the teacher asked us to download the app "Google translate". I found that there were more apps than before in our HTC s. The teacher wanted us to use this apps as an e-dictionary. The most interesting function of it is speaking translation. I used it to practice my speaking because it can't recognise if you said unclearly.

✕ The "Write" Way -- Let's Have Fun Writing! ✎ 🔗 ⋮

Dear students,

I think it's great to start a small writing workshop here. I'll put some writing tasks here each week, and you can choose whichever task you like and work on it. It's purely voluntary, so you just do whatever you think is good for you!

What you can do is add a new note to the notebook that you've shared with me. And you can name that note "Writing" or "XXX's Writing Practice" or whatever name you like. Then you can start writing and have fun!

Enjoy writing!

**April 6, 2013**

What do you think the children were looking at? Why? You can

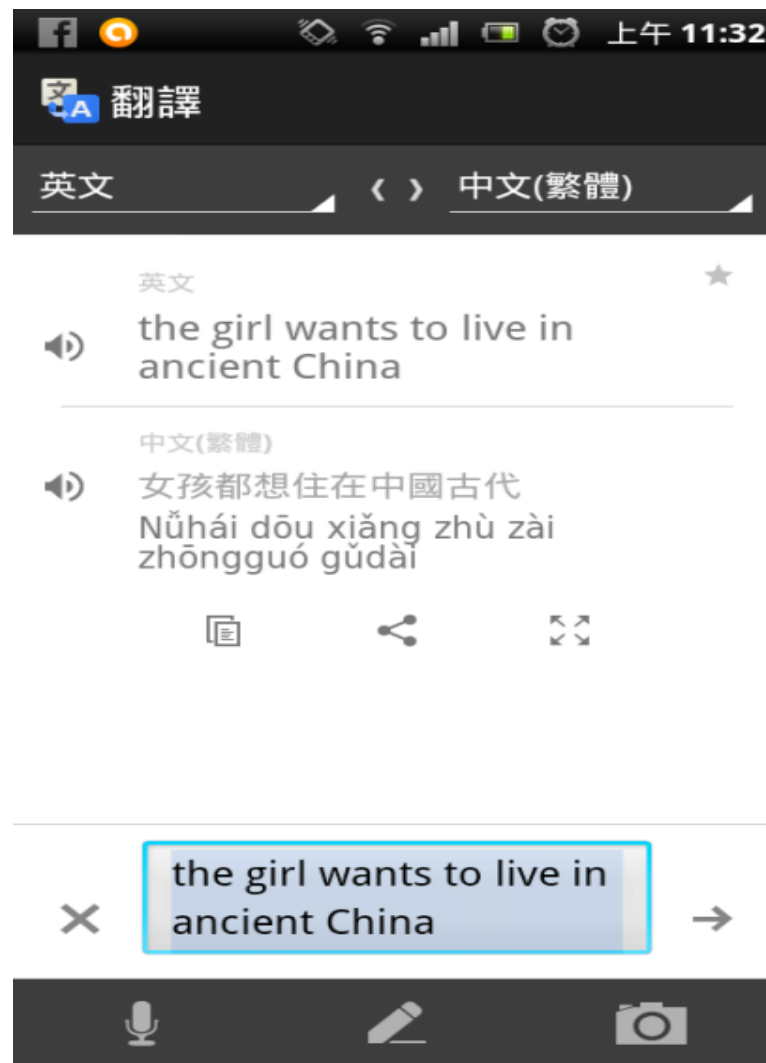

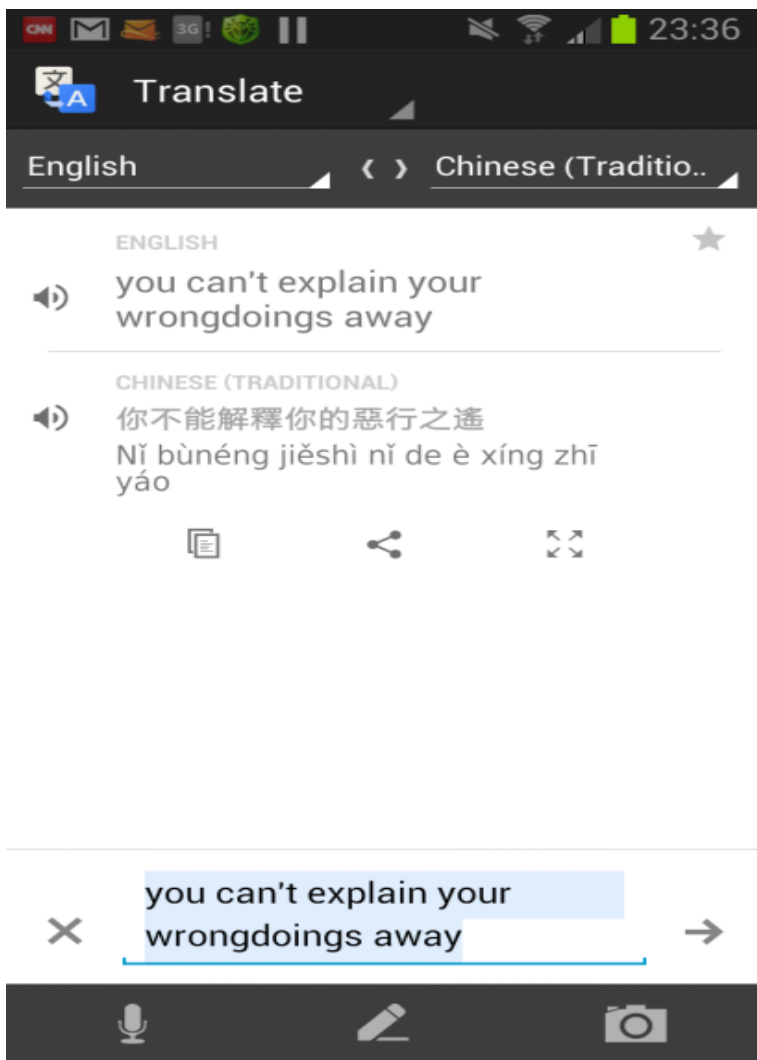

1. simply talk about what they were looking at and why you think so, or you can
2. write a short report about what happened on that day, at the place, while focusing on what the children saw there.

葉中如(deutsch): 宣綺你好， seems that your English is not so bad. Don't worry too much. My suggestion is that you can start by reading a simple grammar book. Find something that you understand and just try to push it through. In the meantime, I think it is still very important to read a lot, whatever it is. If you enjoy novels, just read novels. Don't give up reading if it is something you feel comfortable with. It will help you a lot in the long run.

黃宣綺(sapphirism): 嗯，老師妳好。我的英文手寫真的非常恐怖，所以我不是很喜歡用英文表達意見，故用中文，請見諒:)  
從小我就是念雙語幼稚園，上國小時英文就有比其他孩子略高的基礎，再加上我對英文小說本身有極高的興趣，大量閱讀對我程度的提昇有很大的幫助，因此很少認真聽學校英文老師上過課，直到上了國中才覺得不對勁，那些文法對我來說超級陌生，老師上課抄的中文筆記我一個都看不懂(我只知道動詞名詞形容詞
